

Temperature Controlled Storage Service for Pharmaceuticals at Narita International Airport (NRT)

The customers can secure
the temp-controlled space for the shipments.

Temperature Controlled Storage Service for Pharmaceuticals at Narita International Airport (NRT)

The customers can secure the temp-controlled space for the shipments.

Outline

Our temp-controlled facility at NARITA International Airport (NRT), certified of CEIV Pharma, provides the temp-controlled services required for the sensitive pharmaceutical products.

Points

To meet with precise temperature control needs, ANA collaborated with International Air Cargo Terminal Co., Ltd. to provide comprehensive services at NRT, one of the ANA's cargo hubs.

Important notes

Pre-arrangement is required to secure storage space. Please contact our Sales in advance to make a booking.
