"✓" indicates transportable, "×" indicates NOT transportable

- *1 Even when the transportation is marked as transportable (✓), there are some DG Classes that are restricted for each airport. For more information, please refer to the following URL.
<https://www.anacargo.jp/en/int/regulations/embargo.html>
- *2 Large or heavy cargo may be subject to restrictions, so please check with our sales or reservation person in charge in advance when making reservations.
- *3 Reservations for warehouse space at the arrival airport must be made prior to transport. Please check past Cargo News, our sales or reservation person in charge for reservation details.
- *4 UN1845 Dry ice (ICE) may be transported for cooling purposes only.
- *5 Only lithium batteries that do not require DGD can be transported.
- *6 DG Class 1 is restricted. DG Class 7 may be subject to size restrictions, so please check with our sales or reservation person in charge in advance when making reservations.
- *7 All medical supplies are restricted.
- *8 Only ELI and ELM, Sec- II of lithium batteries are acceptable.
- *9 Storage at -5°C and +5°C are acceptable, but keeping at -15°C is unacceptable.

For more details, please do not hesitate to contact our sales or reservation person in charge.
Your kind cooperation and understanding is highly appreciated.
